

# EDGE

*Dynamic*

deJONG DUKE

# A COFFEE EXPERIENCE LIKE NO OTHER

*Robust*

**Edge is a state-of-the-art machine with a modern look. All the style of a high-end machine, with the quality you need to ensure easy maintenance.**

Edge can serve a wide range of high-quality drinks, from fresh bean-to-cup coffee to delicious soluble drinks, with a single touch. Choose to add a cold still and/or sparkling water option to the separate water outlet.

Your valued customers will enjoy the user-friendly interface, premium light effects and full-color touchscreen, which make selecting drinks as pleasant as it is easy. And that same screen can display brand videos, images, company announcements and more to increase user engagement and thrill your customers.

Best of all, Edge is easy to clean and maintain, saving you time and money. And with ConnectMe®, you'll never lose touch with Edge. Simply log in to obtain service information, user statistics, part replacement announcements and more.

# FEATURES

## 1. Visible beans

Fresh, bean-to-cup coffee in plain sight.

## 2. Premium light effects

Draws attention to the output and focuses on the drink.

## 3. Full-color, 10.4-inch touchscreen

High-quality glass touchscreen for easy use and visual appeal.

## 4. Glass detection

The machine only starts when a cup or glass is in place to be filled.

## 5. Water outlet

For hot or optional cold still and/or sparkling water.

# RELIABLE, SMOOTH AND EASY MAINTENANCE

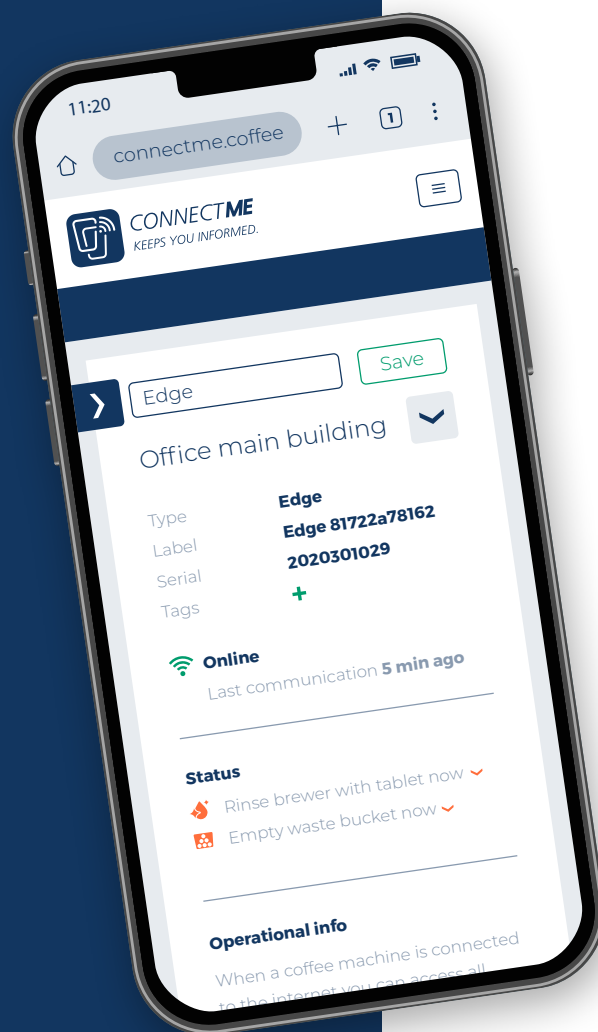

Our coffee machines are designed to stand the test of time. They ensure smooth operation with reliable performance, easy maintenance, and low total cost of ownership (TCO). We believe in intuitive design that makes our products easy to use for customers, consumers, and technicians. Our ConnectMe solution empowers you to diagnose and solve problems remotely, enabling higher service at lower costs.

## CONNECT YOUR COFFEE MACHINE

ConnectMe is our two-way communication connectivity tool that helps you improve customer service and ensure hassle-free maintenance. When a coffee machine is connected to the internet, you can access all machine information by simply logging in. You can diagnose and solve problems without leaving your office. This allows you to help your customer while saving time and resources, so you can deliver higher service and lower costs.

With ConnectMe, you'll get to know your coffee machine(s) like never before. ConnectMe provides you with all the data to do preventive maintenance, like part replacement. Consumption data is also available, so you can plan cleaning during off-peak hours or put machines in energy-saving mode when they aren't being used.

Transform your coffee machines into interactive communication platforms and use ConnectMe for announcements, brand videos, and advertisements.

# YOUR CHOICE OF EDGE TECHNOLOGY

*Bean-to-cup*

Adjust Edge to your needs with our various brewer options and instant technology.

## CoEx XL®

Our CoEx XL technology has a “barista twist” that provides an even coffee bed for optimal extraction. Our patented pressure regulator guarantees consistent coffee quality every time. Recipes are easy to set up. Gram throw between 8 and 20 grams enables the preparation of two black coffees at once.

## CoEx®

CoEx technology is our patented brewing system that offers coffee (1-8 bar) or espresso (9-12 bar) with just one machine. The gram throw ranges from 6 to 10 grams. CoEx’s reliable mechanism and easy-to-remove filter offer effortless maintenance. The entire unit can be cleaned with hot water.

## Filterfresh®

Filterfresh technology offers an easy-to-replace filter roll. Our Filterfresh vacuum principle allows a proven and reliable roll technique. The machine is easy to clean and can be used for freshly ground beans or fresh brews.

# SUSTAINABILITY

We take pride in taking good care of our company, each other, and our world. Today and all the days ahead. We produce our machines in an energy- and CO<sub>2</sub>-neutral production environment in Sliedrecht. Our 2,238 solar panels supply us with renewable energy.

Our machines are designed in line with our ACT2 circular guidelines using high-quality and partly recycled sustainable materials. This ensures machines are easy to repair, refurbish, and recycle, reducing their environmental impact throughout their lifecycle.

When our machines are connected to ConnectMe, additional energy-saving benefits become evident. Customers can save up to 30% of energy through an adaptive energy-saving mode, on top of the regular pre-programmed energy-saving setting. ConnectMe analyzes user trends on the machines and automatically activates the energy-saving mode when appropriate, ensuring that the equipment remains operational whenever it is needed.

design*

# TAILOR TO YOUR NEEDS

We offer a wide variety of options and accessories to tailor your machine. Choose a coffee brewer or configure the machine to your customers' specific needs. Select the number of bean canisters, different canisters for milk powder, chocolate drink powder, plant-based products and more. Add a cabinet to hold a water cooler for cold still and/or sparkling water or for a waste guide. You can even add a payment system to your machine.

### About de Jong DUKE

De Jong DUKE is a Dutch, family-owned business founded in 1897. We believe in living up to our promises and doing what we say we'll do. Continuity and a clear focus on the future are fundamental to our organization. From our production sites in the Netherlands and the US, we serve customers across the globe.

We are dedicated to creating innovative, reliable, and easy-to-use coffee machines for the out-of-home market. Our in-house engineers and software developers continuously develop our ConnectMe software and our coffee machines, to provide the best, most user-friendly coffee machine experiences. Our machines make high-quality coffee and serve the perfect cup every time.
